Scouting The Shops

with Sally

Our feet hurt.

And you know yourself that when your feet hurt, you can't see the Silver Linings to the Clouds or the Lighter Touch or the Finer Things in Life, Etc.

We've scouted so many shops that we feel like Daniel Boone in his more decrepit stages.

But we found so many wonderful bargains that we're going to hit the Editor up for the job of Star Reporter.

Flash: 24 boxes of groceries are going to be given away absolutely free at Westlake Market, Saturday.

Stand by ladies and gentlemen: we have just received word that a new radio store is opening at 6283 Mission street. It's called the G & K Radio Store.

Flash: Mothers day is just around the corner. Boxed candy for mailing is wrapped free at the Daly City Nut Shop. When Mother eats it, she'll wish she had a dozen more children just like you.

We are informed by reliable sources: that raw Guernsey and Grade A milk may be procured at the new Hacienda Dairy Products, opening at 6149 Mission street.

Scoop: S & W peach nectarade or apricade is selling 2 tins for 15c at Crocker Grocery.

Drama note: John Steinbeck's famous "Of Mice and Men" is a memorable and moving picture. It is now playing at the Daly City theatre.

Society: Mr. and Mrs. John Doe enjoyed one of the pleasantest evenings of their lives at the Hilltop Lodge last night.

War news: household moths re-

STARRING TRIO IN "OF MICE AND MEN"

Lon Chaney, Jr., Betty Field and Burgess Meredith meet under strange and exciting circumstances during the action of "Of Mice and Men," the new Hal Roach production based on the great John Steinbeck novel and now playing at the Daly City theatre.

Daly City Joins

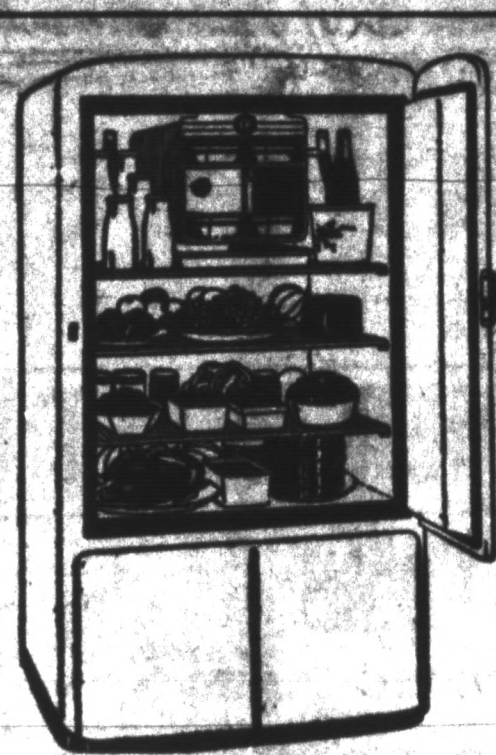

"Barber, trim my beard in that Early California style, I'm going to join in the Fiesta fun with San Francisco." So spoke Mr. Daly City, as preparations got under way here for the Fair in Forty Fiesta, to be held in San Francisco from May 19 to 25. No local celebration has been planned, but individuals have already started to grow whiskers and plan to dress up for the event downtown.

Many local residents are already purchasing ten-gallon hats, cowboy shirts and other Fiesta garb, according to Henry Warshawski, whose store is Fiesta headquarters for this area.

"Join the early crowds and be sure of completing your Fiesta outfit," Warshawski said today. "Last year, the demand on some items was so great that supplies were exhausted early, disappointing many people. We'll try to take care of everybody, but just to be safe, shop early."

SPRINGTIME MEAT LOAF to serve sliced cold

Dorothy Greig

EVERYTHING seems to lighten up in the spring, including meals. That does not mean we must change our whole scheme in planning meals. But it does mean that a bit of springlike atmosphere is a welcome change from the hearty

Mushroom Meat Loaf is sliced and served cold for springtime meals.

loads of winter.

For instance, take this meat loaf. In cold weather it is savory served oven-hot, accompanied by gravy and cooked hot vegetables. But for bright springlike days let us bring it to the table sliced cold and garnished with raw green pepper rings and radish roses. Start the meal with a stimulating hot soup, such as chicken soup, and it with fresh fruit and you have a delicious meal from start to finish—and a satisfying one, too.

Mushroom Meat Loaf
1 pound veal, ground
1 pound smoked ham, ground
4 tablespoons tomato catsup
4 tablespoons green pepper, finely chopped
2 eggs, beaten
1 can condensed cream of mushroom soup
1 small onion, finely chopped
1 cup fine dry bread crumbs
1/2 teaspoon salt
1/4 teaspoon pepper
Mix the ingredients in the order given and pack into a loaf pan. Bake in a moderate oven (350°) for one hour to one hour and fifteen minutes. Serves 8.

Home Highlights

Here's a charming way to have spring indoors as well as out. Plate glass shelves of this type may be obtained from any glass dealer and when cut to the desired length they may be easily installed. Such a window treatment is particularly charming for summer, eliminating the necessity of curtains that soil easily and require many launderings. Potted plants, small bowls and vases of flowers or china and glass ornaments are all attractive for the shelves.

Proper Electrical Service

The home owner, when buying electrical equipment, is cautioned by the Federal Housing administration to bear in mind the type of electrical service he is to receive, as many electrical appliances usable on direct current will not operate on alternating current. Localities where direct service is supplied are declining, but it is still a factor.

Location of Thermostats

Five feet above the floor is considered a generally satisfactory height for the location of thermostats. They should be placed in locations protected from drafts and not in contact with a large volume of air. The rather bulky thermostat of yesteryear has been beautified, and their location today on the living room wall does not mar the decorative scheme.

SCOUTING THE SHOPS

(Continued from Page 1)

ported in rapid retreat from blankets treated by New Process Laundry.

Twenty years ago today: the richest lady in the land couldn't have bought a Gibson electric refrigerator. Now it is yours for \$4.25 a month. See Byrne Radio Store.

Financial trends: burgundy, sauterne and claret selling 20c a quart at the Daly City Cut Rate Market today.

For Sale: one pair old shoes, brown, size 10 1/2. We're getting a new pair from Bosco Shoe store.

Motor news: Mather Brothers say the new Willys car goes 30 miles on a gallon.

Headlines: don't be a farm girl. La Cerna Beauty Salon will give you that glamorized coiffure you dream about at night.

Latest news from the world of sports: an all-day picnic with free barbecue at Vallemar Park in Rockaway Beach. See Club Metropolis.

Personal: Johnny, come home to me now. All is forgiven. Chocolate cake from Geneva Bakery will mend our broken hearts and make them beat as one.

Fashion note: everyone's dressing in style for the "Roaring Forties Fiesta." See Henry Warshawski's for Spanish hats, Western neckerchiefs, cowgirl skirts.

Did you know: that Colma Pioneer Grocery sells soap, straw, coffee, jelly and cement—among other things.

Sparkle!: (we're tired of Flash); delicious Ice Cream is 10c a pint at Farmers Market.

Censored: old-fashioned cleaning methods. Beeson's can do the trick in the twinkling of an eye.

How To Make Friends and Influence People: serve Italian style Salami, solid and spicy, 39c a pound, Casentin's Jefferson Market.

Garden column: competent authorities advise that you forget

those half-grown buttercups in the back yard and get Mother some really nice flowers from the Daly City Nursery.

Letter from Our Reader: Dear Sally, I read your column every week and then I go out and buy myself a box of aspirin from Edwards Drug Store. I don't know what we would do without Edwards in this town. Sincerely, Mrs. Z.

Lost and found: Lost: our respect for the old-type milk bottle. Found: a wonderful new bottle from Mission Creamery that separates milk and cream like the just from the unjust.

Wall Street Reports: ticker tapes indicate that flour will be selling for 37c for a 10-pound sack at Lucca Ravioli's Friday and Saturday.

Personal: Hungry clients welcomed at my establishment. Lunches only 30c. The new Daly City Creamery.

Today's short-short story: There was a woman in our town who, when she discovered that powdered sugar was only 6 1/2c a package at Vireno's, stocked up for a rainy day and was never sorry.

Agricultural notes: wise farmers waste few minutes in selling fresh ranch eggs to Robertson's egg store.

Weather forecast: sunny and warm, ideal gardening conditions throughout Northern California. See Daly City Nursery for further particulars.

Last-minute communique: authoritative sources said today that Goodness! candies are famed in all diplomatic and even undiplomatic circles.

Probating Wills

It is necessary that any will which is produced must be probated. This is for the double purpose of protecting the wishes of the deceased and the rights of his declared heirs. It also assures that any government taxes will be paid.

Beginnings of Kindergarten
Maria Montessori, the Italian educator, studied at the University of Rome and graduated in medicine in 1894, being the first woman in Italy to do so. She then took up the subject of educating defective children. From the experience thus acquired, she came to the conclusion that similar methods might be applied to normal children of a lower age, and after a series of experiments on a small scale she extended them to a large number of children in private and public nursery schools in Rome. Her ideas on education have been set forth in several books which have been widely translated.

National Park Visitors
Travelers from 22 foreign countries, five United States possessions, the 48 states and the District of Columbia were among the 361,787 visitors to Mount Rainier National park last year. It was the second largest number of visitors in history.

Arbitrary Date Line
The International Date Line is an irregular line which is drawn somewhat arbitrarily on the map of the Pacific ocean, near the 180th meridian of longitude. This line marks the place where navigators "change their date" on the trans-Pacific voyage. The line is drawn on the map in a general north-and-south direction, separating the islands of the Pacific ocean in such a manner that all those in the east carry the same date as the United States, and those in the west the same date as Japan and Australia.

Slate Roofs
When the roof of a home is renewed, the matter of weight of the material selected must be studied carefully. If the old roof is of wood shingles, it is often possible to cover it without removing the old shingles, but if a heavy material, such as slate, is used, the frame must be checked to see if it will safely carry the added weight.

Free Texas Entertainment
Lott, Texas, has regular free boxing shows every Saturday afternoon, free rodeos every Saturday night.

Western Duck Sickness
Vance T. Wilson is one hunter who doesn't take his prizes home with him; he sets them free, reveals the American Magazine. Wilson is head of the Bear River Migratory Bird refuge at Brigham, Utah. He scours the marshes for sick ducks, and every year cures thousands of their most deadly disease—western duck sickness. The plague was brought on when irrigation projects took away too much water.

Phosphorous Buttons
After weeks of stumbling over each other in the pitch black streets, Berliners are now wearing round buttons the size of a penny around the neck or in the button hole. Covered with phosphorous, they glow in the blackness.

Height of Chimneys
Height plays a considerable part in the efficiency of a chimney, many authorities maintain. For this reason, chimney heights of 30 to 35 feet as a minimum are recommended. Any arbitrary minimums must be considered in the light of local conditions, however, as overhanging trees, the height of the chimney above the roof, and strong prevalent winds can cause disturbance in the draft action.

U. S. Mutton Consumption
Nearly two-thirds of all the lamb eaten in the United States is consumed north of Washington and east of Pittsburgh, an area which grows less than 5 per cent of the country's sheep.

LOOK lady!

with
JOSEPHINE
HUDDLESTON

A new version of that popular old game "put and take" is etching wrinkles on the brow of homemaker and laundryowner alike. Here's how it's played. Mrs. Homemaker slips little Johnny's last clean sweater—the blue one—over his head, puts the soiled green one in with the regular laundry bundle and sends little Johnny out to play.

A few minutes later little Johnny comes screaming into the house, smeared with mud. Nothing for mamma to do but flinch the less soiled green sweater out of the laundry bundle, put it back on little Johnny and the mud-streaked blue one goes into the laundry bundle.

About this time the laundryman arrives, collects the washing and goes on his way. A day or two later the laundry returns and mamma starts looking for little Johnny's green sweater. It is missing. Completely forgetting that Johnny's fall in the mud necessitated a change of sweaters, Mrs. Homemaker calls the laundry and starts it on a hunt for little Johnny's green sweater.

The laundry can't find it. Mrs. Homemaker can't find it. It's lost, and the laundry is a meanie until next week when Mrs. Homemaker makes up the laundry bundle and finds little Johnny's green sweater in the bottom of the hamper!

It is thus that every homemaker plays "put and take" with her laundry bundle.

Making a list and keeping it accurately would do much to save the sweet disposition of thousands of homemakers and laundrymen.

Making a list of all the things we sent to the laundry is an efficient, reliable way in which to conduct that part of homemaking.

Being women, and having the unexpected happen to us every day, we'll still play "put and take" with our laundry bundle. But, if we mark down the changes we make, if we remember to

mark down the last minute additions—such as the apron we are wearing when the laundry route-man arrives—the homemaker will have a written record of the transaction which can be checked immediately.

Shanghai Child Refugees
Smiling for the first time in months, 400 child refugees in Shanghai were transferred to Chekiang province where they are beginning life anew.

Latin America's Purchases
Latin America increased its purchases of United States medicinals 30 per cent in the last year and accounted for 20 per cent of the total shipped from this country.

Want a tasty new Cheese Dish? Try these Cheese Fritters

Golden-crisp outside with soft centers of tantalizing goodness

You'll hardly be able to wait to taste these Cheese Fritters, when you lift them from the frying kettle, all golden and fragrant and steaming. Just sniff that fragrance, and look at those golden crusts!

One touch of the fork breaks through the crispy crust, and when folks taste that creamy cheese-and-egg center they're sure to exclaim, "Say, these taste good!" Best of all, you can make tasty Cheese Fritters any time—for any lunch or supper that calls for an extra mouth-watering dish.

Be "in the know"—
Deep-Frying is as easy
as Pan-Frying—

that is, if you use the purer vegetable shortening, Spry. That means no unpleasant smoke or smell when frying. Simply heat up to 375°F., drop in fritters, and take 'em out brown! Notice how clear your

fat remains. That's one of the real advantages of frying with a pure vegetable shortening.

Be sure to save it to use again. There's another advantage—economy—because it can be used again and again. Just let it cool, strain through cheesecloth into an empty can, and be ready for the next frying.

First though, try these Cheese Fritters—do it today. Here's a recipe you'll put in your file under "The Family's Favorites."

CHEESE FRITTERS

2 eggs, beaten ½ teaspoon soda
2 cups grated 1 teaspoon warm
American water
cheese ¼ cup fine
½ teaspoon salt bread crumbs
Dash of pepper

Mix beaten eggs, cheese, salt and pepper. Dissolve soda in warm water; add to cheese mixture. Add bread crumbs and shape mixture into cakes. Fry in deep Spry (375°F.) until golden brown. Drain on absorbent paper. Makes 12 fritters.

(All measurements in this recipe are level)

Hacienda Dairy Products On Sale Here

Phillip De Rosa, enterprising young business man, this week opened a new store for Daly City, Hacienda Dairy Products. Featured in the opening specials is a full pint of popular brand ice cream for 12 cents.

"We will also feature fresh Guernsey and grade 'A' raw milk from the famous Toyon farms of La Honda," De Rosa stated. A full line of all dairy products is offered. Delivery service will be maintained.

Abyssinian Burial Tree

In Abyssinia and other parts of Africa, the baobab tree is often used as a tomb and due to some property of the wood bodies placed therein become mummified.

Automobile Ownership

Only one-quarter of America's 24,000,000 automobile owners have incomes of \$60 a week or more, according to a survey reported by a South Bend, Ind., manufacturer.

Development of Bicycle

The general idea of the bicycle is suggested in ancient carvings, but the machine was not successfully developed until the Nineteenth century.

Aluminum Softball Bat

A new product of the metal industries is an aluminum-alloy softball bat designed by a company in Cleveland. Weighing the conventional 32 to 33 ounces, the bat does not sting the hands because it is made of metal, and it cannot break in actual play.

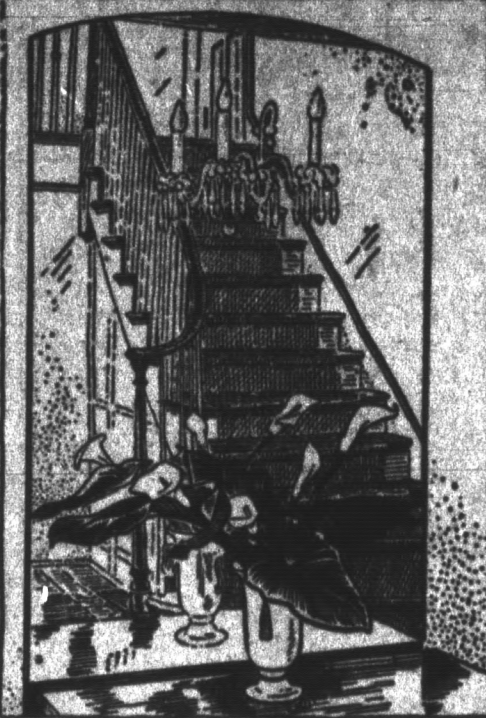

U. S. Cigarette Manufacture

Three cities in North Carolina—Winston-Salem, Durham and Reidsville—manufacture over half of all the cigarettes produced in the United States.

Population Density

Washington, Oregon, Idaho and Montana are less densely populated than Russia.

Home Highlights

Don't forget that with the flower stalls and florist shops filled with spring flowers you can create mirror magic with flower arrangements. You can see here how much more effective this simple flower arrangement is when placed in front of a gleaming mirror of polished plate glass. Mirrors over buffets, console and living room tables and mantels all provide the perfect background for an attractive arrangement of flowers.

Men's Trench Coats

A boom in the sale of men's trench coats is due to the "discovery" of young men that their girl friends like a uniform, according to the Wholesale Textile Association, of London.

Daly City Creamery Gets New Spring Dress

Keeping in step with Daly City's annual clean-up-spruce-up event, Roy Wilson's Daly City Creamery will blossom forth in new dress during the next few weeks.

On the inside, new paint on walls, ceilings, counters and booths has brightened up the tone of the place, and new counter seats have made having lunch or soda a comfortable event.

The front window has been lowered two feet and a stainless steel displaying table has been put in the front and entrance windows for displaying merchandise.

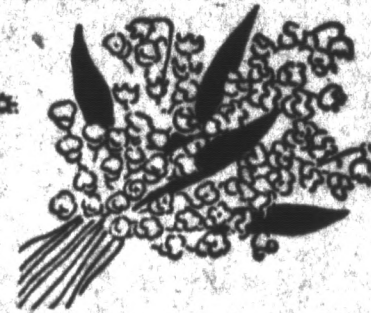

The black marble and chromium trim front will be polished until it glistens and lacquered to protect it against the weather, and a brand new flood-lit sign put above the window. The upper portion of the building will be painted an attractive cream.

London's Autumn Flowers

In the countryside around London in the fall can be found Heather and Willow Herb in flower. Travelers Joy in the Hedgerows, Convolvulus, Teazles, Ivy in bloom, and plenty of blackberries and nuts for the gathering.

Biggest Building

The biggest building in Europe is the Palace of Justice at Brussels. It covers an area 12 per cent greater than that of St. Peter's at Rome.

COOKING FOR TWO

Individual Shepherd's Pie... a savory main course for a meal for two, says Dorothy Greig

SOMETIMES I wonder that twosome cooks don't rise up and demand at least an occasional recipe that is geared for two instead of six portions.

Halving the quantities called for in the usual recipe often presents a puzzle to a beginner like my young friend Mary, for instance, who called up one day to ask "How do I get half an egg?" I told her to whisk the egg with a fork and then use half of it.

On main course dishes there are many ways of managing, however. Take stewing chicken, for example. After it has been stewed or steamed save out one-half and fry it next day for dinner. It will be beautifully tender.

Ground meat is a regular life saver, for so many things can be done with it. Just to mention a few, you can offer it as meat cakes. You can put it out in one-half inch thick layer, spread stuffing over it, roll up, bake and serve on a bed of rice. Or you can make savory meat sauce of it to go over spaghetti.

Frankfurters, sausages, liver, kidneys, chops, small steaks, ham slices, broilers, smoked ham butts are other meat possibilities for the small family. And one can of pork and beans is exactly right for two people.

But to get back to recipes, here are several planned specially with the twosome cook in mind:

Shepherd's Pie
1 can condensed vegetable-beef soup
1 cup cooked beef, diced
1/2 cup beef gravy
1 1/2 cups mashed potatoes

Combine the vegetable-beef soup, cooked beef and gravy. Heat and put all into small individual cas-

seroles. Cover with a layer of mashed potatoes and bake in a hot (425° F.) oven about 15 minutes or brown potatoes under the broiler. Makes 2-3 portions.

Broiled Chopped Steak with Delicious Creole Sauce

Delicious Creole Sauce:

1 medium onion, diced
2 cloves garlic, chopped very finely
1 pimiento, diced
1/2 cup uncooked ham (cut in small dice)
2 tablespoons cooking oil or fat
1 can condensed tomato soup
1/4 cup water
2 teaspoons sugar

Sauté the very finely chopped garlic, diced onions, diced ham, and diced pimiento in the cooking oil or fat 10-12 minutes until onions are soft and transparent. Then add tomato soup and water, cover and simmer 1/2 hour. Add sugar just before removing from fire. Makes 1 1/2 cups sauce.

Broiled Chopped Steak (for two):

1/2 pound ground beef
1 tablespoon parsley, chopped
1 tablespoon onion, chopped
1/2 teaspoon salt
Pinch of pepper

Shape into a steak about 1 inch thick and broil. If meat is dry turn as soon as seared and spread with butter. When finished serve with "Delicious Creole Sauce". Serves 2.

Longest Army Gun Range
In the American army the 16-inch gun has the longest range, approximately 30 miles. The Paris guns used in the bombardment of the city of Paris during the World war had a possible maximum range of 79.8 miles, the longest range of any gun known.

Fireproofed Cotton Insulation
The possible use of fireproofed cotton as an insulating material in the construction of homes, office buildings, and other structures has been suggested in Texas, where such a process has been developed.

Tee for Three
At Yonkers, N. Y., a water tower marks the spot where the first golf tee in this country was located. Early sabbick fans, however, found the pasture was too hilly for golf and abandoned what might have been America's first golf course after only three holes had been laid out.

U. S. Highest Lake
The highest lake in the United States having an area greater than one-tenth of a square mile, is Tulainyo, 1 1/2 miles northeast of Mount Whitney, Calif. It has an elevation of 12,865 feet.

Most Favored Nation
Under the amended 1930 Tariff act every nation is entitled to any reduction in duty given to any other nation, unless the President proclaims that a certain country is discriminating against our commerce. Such a proclamation was made by the President in regard to Germany. Germany is the only country to whom the most favored nation tariff policy is denied.

World's Cow Census
Of the 120,000,000 cows in the world, 24,000,000, or 20 per cent, are in the U. S.

Delicious

WHAT'S in a name? Take "Chocolate Mint Cream," for example. Doesn't each word whet your appetite? Blend these and the other ingredients listed below, into a mold of this dessert and you really have something worth while.

Chocolate Mint Cream

2 squares unsweetened chocolate; 1 tablespoon granulated gelatin; 1/4 cup milk; 1 1/4 cups milk, scalded; 3/4 cup sugar; 1/4 teaspoon salt; 1 cup heavy cream; 1/4 teaspoon vanilla; few drops oil of peppermint; green coloring.

Melt chocolate in top of double boiler. Soak gelatin in 1/4 cup milk 5 minutes. Add scalded milk, sugar, and salt, and stir until gelatin is dissolved; add cream. Pour 2 cups gelatin mixture slowly into melted chocolate, beating with rotary egg beater until blended; then cook 5 minutes. Remove from boiling water and add vanilla. Chill chocolate mixture until cold and syrupy. Place in bowl of cracked ice or ice water and whip with rotary egg beater until thickened. Pour 1/4 of chocolate mixture into large mold or individual molds and chill until firm. Place remaining chocolate mixture over lukewarm water until ready to mold. To the plain gelatin mixture, add oil of peppermint and green coloring. Chill until cold and syrupy. Place in bowl of cracked ice or ice water and whip with rotary egg beater until thickened. Turn into mold over firm chocolate layer and chill until firm. Pour remaining chocolate mixture into mold. Chill until firm. Serve plain or with whipped cream. Serves 6.

Club Metropal Picnic Sunday

Club Metropal tallied up the supply order for the monster picnic Sunday, at Vallemar Park, Rockaway Beach, at a special meeting Tuesday night.

Nearly four hundred pounds of steer beef, 75 dozen buns, gallons of mustard and gallons and gallons of chili beans—all for the free barbecue.

The barbecue is only part of

the all-day program, club officials said today. There will be dancing to the music of the Rhythm Makers, a baseball game, games and races for which there will be prizes.

A public address system will be used for an informal amateur contest, and amusements are planned for all ages. There will be a booth for refreshments.

Money in Your Pocket
You don't have to shoot the bill collector or put in a new furnace to save on your winter fuel bill. Scientists of a major glass company have found that savings up to 30 per cent can be obtained by "window-conditioning" a house with storm sash.

Unlawful Land Possession
In most states, land that has been in the unlawful possession of one individual for a period of 20 years automatically becomes his property.

Eight Ounce Gloves
The International Amateur Boxing federation has stipulated gloves in bouts under its jurisdiction must weigh eight ounces, the leather and stuffing not to exceed four ounces each.

Lake George Discovery
Lake George was discovered in 1646 by Father Isaac Jogues, known as the French ambassador of peace to the Indians. A statue of the priest and explorer has recently been unveiled on the shores of the lake.

Insulation Terms Defined
"Fully insulated" and "completely insulated" are two terms frequently misused, FHA officials say. "Fully insulated" means that the house is equipped with both wall and roof—or top-floor ceiling—insulation. Both new and already-built houses may be "fully insulated."

Beefsteak Is Favorite Dish
A survey of restaurants disclosed that beefsteak is the favorite dish in the United States, with corned beef and cabbage second.
